Company

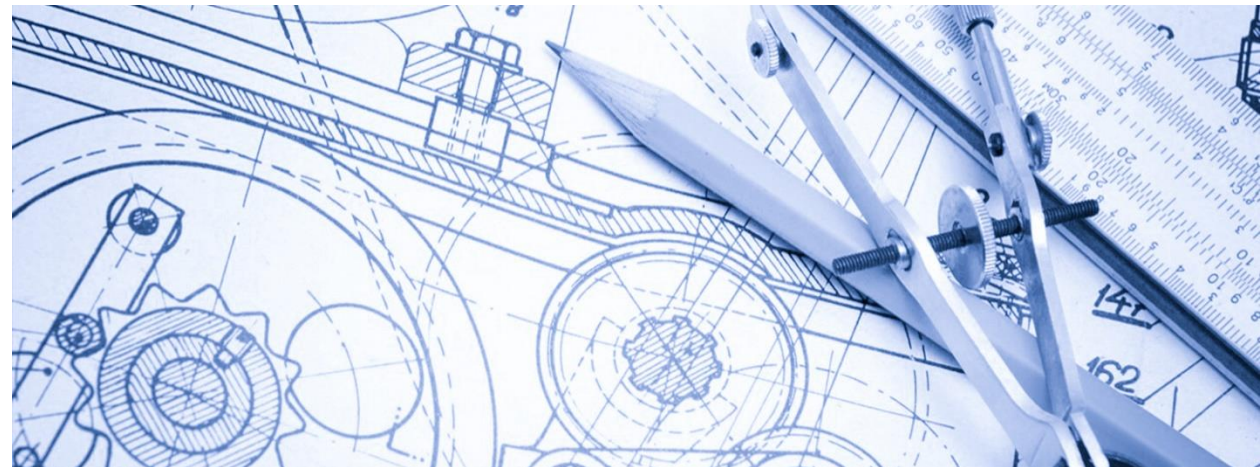

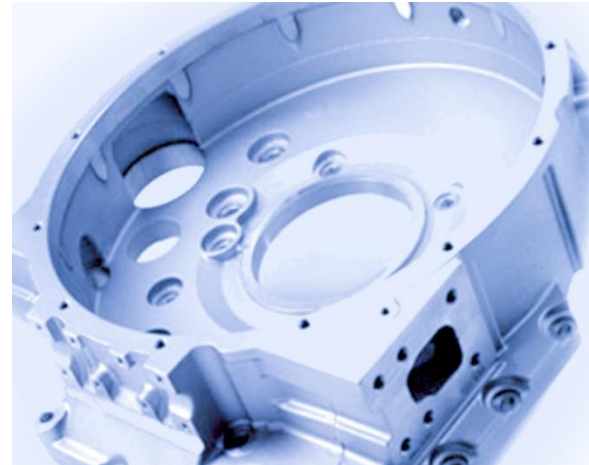

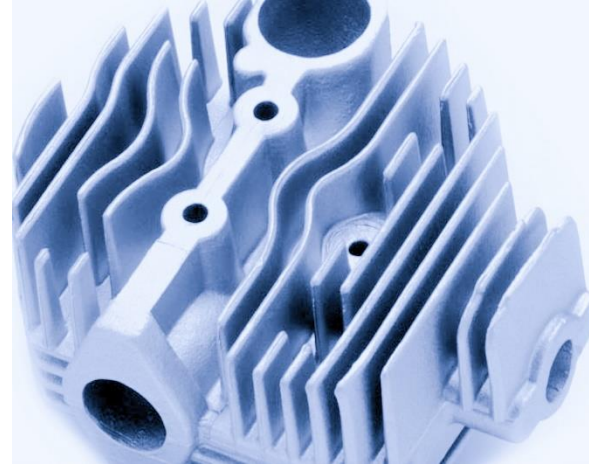

m metal 2

Founded in 1963, in the city of Santo André, and currently located in Mogi Mirim, metropolitan region of Campinas; Metal2 serves the largest national and international industries in the automotive, agricultural, energetic, among others sectors, manufacturing aluminum products, gravity die-casting and sand molding, machined in CNC machining centers.

Company

The customers designs are developed by reliable solutions in parts and devices, using NX12 software technology, simulation and virtual optimization of casting processes - MagmaSoft®, guaranteeing the technical specifications. The company also follows the quality management system, IATF-16949 and continuous improvement programs such as Kaizen and 6 Sigma.

Company

Metal2 also has metrology laboratories equipped with three-dimensional coordinate measuring machines (CMM), physical, chemical, metallographic and radioscopy (X-ray) analysis equipment, guaranteeing the quality of services provided in the most demanding international standards.

Company

- Total Area: 80.000 m²
- Building area: 9.500 m²
- Number of employees: 120
- Production capacity: 230 ton/month
- Current Market: 90% internal e 10% external
- Exporting countries: USA, México, China, England, Belgium, India, Japan

Machines and Equipment

- Melting furnaces with capacity 2.8 ton/hour (04)
- Desgassing for metal treatment (04)
- Gravity die casting machines (19)
- Tanks for tightness testing (10)
- CNC machining centers (16)
- CNC lathe (01)

Quality Management

- IATF-16949: Certified by BVQI
- 6 Sigma: Continuos
- Kaizen: Continuos

2018

2006

2005

Productivity Programs

- Overall Equipment Efficiency (OEE)
- Reduction of stock levels
- Rework Reduction
- Energy Reduction
- Scrap Reduction
- Overall Improvement
